The Forman Thesis: 40 Years After <i>Cathryn Carson, Alexei Kojevnikov and Helmuth Trischler</i>	1
Cold War Culture, History of Science and Postmodernity: Engagement of an Intellectual in a Hostile Academic Environment <i>J.L. Heilbron</i>	7
Selected Chronological Bibliography of Paul Forman's Scholarship	21
Part I. The Forman Thesis	
Scientific Internationalism and the Weimar Physicists: The Ideology and its Manipulation in Germany after World War I <i>Paul Forman</i>	26
The Financial Support and Political Alignment of Physicists in Weimar Germany <i>Paul Forman</i>	57
Weimar Culture, Causality, and Quantum Theory, 1918–27: Adaptation by German Physicists and Mathematicians to a Hostile Intellectual Environment <i>Paul Forman</i>	85
<i>Kausalität, Anschaulichkeit, and Individualität</i> , or, How Cultural Values Prescribed the Character and the Lessons Ascribed to Quantum Mechanics <i>Paul Forman</i>	203

The Reception of an Acausal Quantum Mechanics in Germany and Britain <i>Paul Forman</i>	221
--	-----

Part II. Quantum Physics in its Historical Contexts

Paul Forman and the Environment and Practice of Quantum History <i>David C. Cassidy</i>	263
--	-----

Culture and Mechanics in Germany, 1869–1918: A Sketch <i>Richard Staley</i>	277
--	-----

The Establishment of a Network of Reactionary Physicists in the Weimar Republic <i>Stefan L. Wolff</i>	293
--	-----

Philosophical Rhetoric in Early Quantum Mechanics 1925–27: High Principles, Cultural Values and Professional Anxieties <i>Alexei Kojevnikov</i>	319
---	-----

‘The Shackles of Causality’: Physics and Philosophy in the Netherlands in the Interwar Period <i>Kai Eigner and Frans van Lunteren</i>	349
--	-----

Crisis, Measurement Problems and Controversy in Early Quantum Electrodynamics: The Failed Appropriation of Epistemology in the Second Quantum Generation <i>Anja Skaar Jacobsen</i>	375
--	-----

Causality in Physics and in the History of Physics: A Comparison of Bohm’s and Forman’s Papers <i>Olival Freire Jr.</i>	397
---	-----

Part III. Science and Culture: Cross-Disciplinary Debates

Forman Reformed, Again <i>M. Norton Wise</i>	415
---	-----

From <i>Kosmos</i> to <i>Koralle</i> : On the Culture of Science Reading in Imperial and Weimar Germany <i>Arne Schirrmacher</i>	433
--	-----

Living Ambiguity: Speculative Bodies of Science in Weimar Culture <i>Cornelius Borck</i>	453
---	-----

Science and Politics: Pathology in Weimar Germany (1918–33) <i>Cay-Rüdiger Prüll</i>	475
Jordan alias Domeier: Science and Cultural Politics in Late Weimar Conservatism <i>Richard H. Beyler</i>	487
The Causality Debates of the Interwar Years and Their Preconditions: Revisiting the Forman Thesis from a Broader Perspective <i>Michael Stöltzner</i>	505
Modern or Anti-modern Science? Weimar Culture, Natural Science and the Heidegger-Heisenberg Exchange <i>Cathryn Carson</i>	523
